EXPERIENCE

Python Machine Learning Training – JOVAC (GLA University & Coding Blocks)

Apr 2025 – Jun 2025

- Worked on data preprocessing and feature engineering techniques
- Implemented supervised learning algorithms for predictive modeling
- Gained hands-on experience with real-world datasets
- Built foundational understanding of ML workflows and evaluation

PROJECTS

DevTrack – AI Developer Productivity Dashboard | [GitHub](#)

Dec 2025 - Mar 2026

Next.js | TypeScript | Tailwind CSS | Recharts

- Built a SaaS dashboard using Next.js 14, React, and TypeScript for developer analytics
- Integrated GitHub REST APIs to fetch repository data like commits, stars, and followers
- Developed reusable UI components using shadcn/ui with responsive layouts
- Visualized productivity metrics using Recharts for insights into developer activity

Linksy – Campus Skill Development Platform | [GitHub](#)

Jun 2025 – Dec 2025

Next.js | TypeScript | Tailwind CSS

- Developed a platform enabling students to collaborate and share technical skills
- Built dynamic pages with modular architecture using Next.js App Router
- Integrated REST APIs with efficient asynchronous data fetching
- Designed responsive UI ensuring seamless experience across devices

ACHIEVEMENTS

- Secured 2nd Position in ML Manthan Hackathon at GLA University
- Participated in Techkriti Hackathon at IIT Kanpur
- Solved 500+ DSA problems on LeetCode
- Active in competitive programming (Codeforces, LeetCode)
